ECRS

Comfort Ride products by IMMI® provide a more comfortable restraint system for the operator and encourages operators to wear their seat belts at all times. Seat belts only offer protection if they are used. If the operator becomes uncomfortable in the seat belt and removes it even momentarily, he may not be wearing the belt when he needs it most.

- Designed for rugged environments
- Compatible with 2" and 3" seat belt systems
- Accommodates date-of-installation labels to support OEM maintenance guidelines and replacement policies
- Use with Anti-Cinch Retractors (MACR) provides an optimal comfort system
- Available with electrical options for machine safety systems
